GAUSS WARTHOG – M12G1 LIGHT ANTI-ARMOUR VEHICLE

TYPE
ARMOURED

ELEMENTS
1-2

POINTS
125 EACH

As the Covenant War progressed, the M12G1 gradually transitioned into the primary anti-tank vehicle of the UNSC, replacing tanks in many armoured units as combat losses exceeded new production.

The long range and devastating anti-tank power of the Gauss Cannon will make the Gauss Warthog a priority target of enemy forces. It hits hard, but the Gauss Warthog is a glass cannon. Make sure you give the enemy more than one Warthog to shoot at!
